

Resources for Faculty

New Faculty Orientation

Prior to the start of the Academic Year, the Center for Faculty Excellence organizes a multi-day orientation for all new faculty to ensure their smooth transition into the University and to enable them to access all available resources.

The Center for Faculty Excellence fosters faculty excellence through innovative teaching and leadership to create engaged student success. Using workshops, video presentations and individualized services we work with faculty to develop their talent and advance their outcomes, processes and engagement with CSU students, their careers and the University.
